

## Syllabus

### Ordinary Differential Equations

MATH 214-003

TTh 3:00-4:15 PM

**Instructor:** Dr. Brent Gorbutt

Office: Exploratory Hall 4309 (but really Zoom or Blackboard Collaborate Ultra)

Email: bgorbutt@gmu.edu

**Text:** *Elementary Differential Equations*, 11th Edition by Boyce, DiPrima, and Meade.

**Course Description:** We will be covering chapters 1, 2, 3, 6, and 7 in the text. Since this course is online, for lectures I'll be uploading videos to BlackBoard. That way you have the recorded lectures for reference, and we can be more flexible with the scheduled class time.

**Grading:** Below are the components that will make up your grade for the class:

Recitation	100 points
Midterm 1	100 points
Midterm 2	100 points
Final Exam	150 points

Your final grade will be computed by dividing your total number of points from the above categories by 4.5.

**Grade Scale:** Below is the grading scale. I do not plan on curving your grades.

90% – 100%	A
80% – 89%	B
70% – 79%	C
60% – 69%	D
< 60%	F

**Homework:** I'm not going to collect and grade homework, that portion of your grade will be assessed by quizzes in your recitation. I will provide lists of suggested exercises for you to work as practice that will serve as guides for what to expect on the recitation quizzes.

**Midterms:** We will have two midterms, the first covering chapters 1 and 2 and the second covering chapters 3 and 6. Both midterms and the final will be written. I'll post the exams to BlackBoard for you to take during class. You'll then need to scan and upload your solutions to BlackBoard.

**Final Exam:** The final exam will consist of 10 questions from material covered in the first two midterms and 5 questions from chapter 7.

**Office Hours:** Office hours (via Zoom) will be immediately before class (TTh 2:45-3:20) or by appointment.

**Disability Statement:** If you are a student with a disability and you need academic accommodations,

please contact the Office of Disability Resources at 703.993.2474 or online at <http://ods.gmu.edu>. All academic arrangements and accommodations must be made through ODS.

**University Honor Code:** You are expected to follow the GMU Honor Code: <https://oai.gmu.edu/mason-honor-code/>

**Diversity:** You are expected to act in accordance with the GMU Diversity Statement: <http://ctfe.gmu.edu/professional-development/mason-diversity-statement/>

### Calendar

<b>Week</b>	<b>Topics</b>
25 Jan	1.1-1.3
1 Feb	2.1, 2.2
8 Feb	2.3, 2.4
15 Feb	2.5, 2.6, 2.8
22 Feb	3.1, 3.2
<b>25 Feb</b>	Midterm 1 (Chapters 1 and 2)
<b>1 March</b>	Last day of Unrestricted Withdrawal Period
1 March	3.3, 3.4
8 March	3.5, 3.6
15 March	3.7, 3.8
22 March	6.1, 6.2
29 March	6.3, 6.4
5 April	6.5, 6.6
12 April	7.1, 7.2
<b>15 April</b>	Midterm 2 (Chapters 3 and 6)
19 April	7.3, 7.4
26 April	7.5
<b>3 May</b>	Final Exam, 1:30-4:15 PM

A few suggestions to help you get as much as possible out of this class:

- Use the book. This is the single best thing that you can do to learn the material.
- Attend the lectures and recitation.
- Watch videos. I'll be uploading videos working problems. Use Khan Academy and other YouTube videos.
- Work problems. The best way to learn anything is to do it, math included.
- Ask for help. Your TA, LA, and I are here to help you learn. Though we are unable meet in person we can still meet virtually through Zoom or BlackBoard Collaborate Ultra. I can set up my webcam to act like a document camera or use the whiteboard through Zoom or Collaborate Ultra so we can work problems together.

- The Math Tutoring Center is operating online. You can find out more about it at <https://science.gmu.edu/academics/departments-units/mathematical-sciences/math-tutoring/tutoring-center-hours-and>.
