

## GMU ArcGIS Pro Current\* Version Download and Installation Instruction

Last Update: September 21, 2020

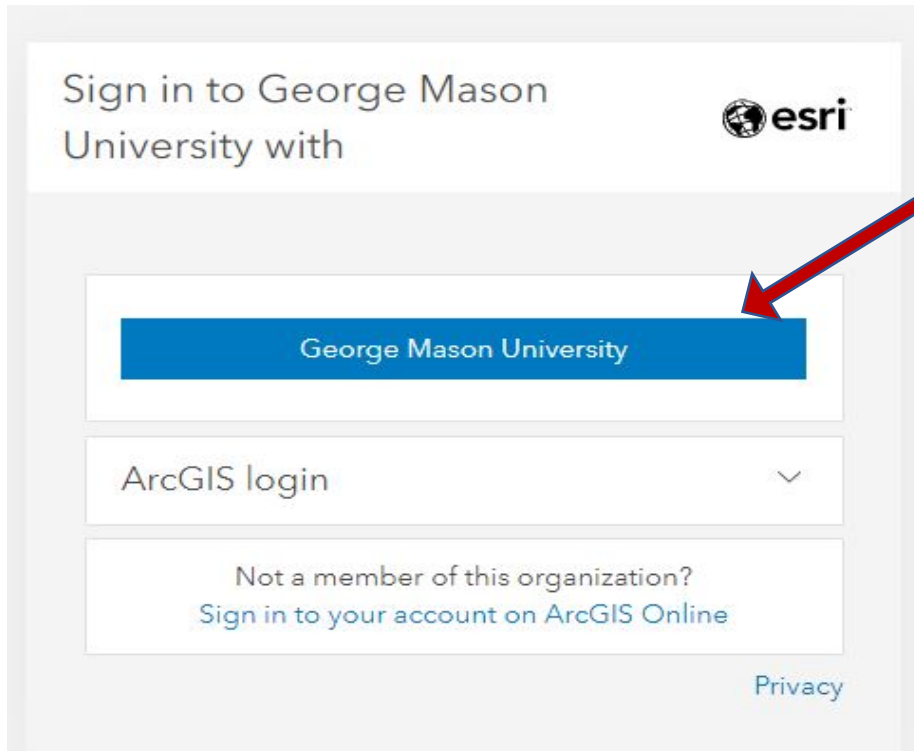

**\*Important:** For any other versions other than the version available from this instruction, please contact [nliu1@gmu.edu](mailto:nliu1@gmu.edu)  
Please consult your instructor if you have any questions regarding which version to use for your class.

Review the ArcGIS Pro [system requirements](#) to ensure your computer will be able to run ArcGIS Pro. If you have a Mac, you will need to install Windows on your Mac. Apple Bootcamp will allow you to run Windows natively and ensure the best experience running ArcGIS Pro. If you use a virtual environment (Fusion or Parallels) you will be using shared resources and should expect slower performance.

If you have another ESRI account, you may choose to link it with your GMU's enterprise account after you login under "Switch Accounts" option on the upper right corner.

1. **Download ArcGIS Pro current version:**
  - a) Please visit

<https://mygmu.maps.arcgis.com>

b) Login using your GMU's credential

NetID

Password

Don't Remember Login

[> Forgot your password?](#)

[> Need Help?](#)

**Login**

- [Two factor login](#) is activated to access this site so please have your cellphone beside you when you login.

c) Accept:

**GEORGE MASON UNIVERSITY** You are about to access the service:  
**mygmu.maps.arcgis.com** of George Mason University

Information to be Provided to Service	
Wprincipal	nliu1@gmu.edu
email	nliu1@gmu.edu
givenName	Na
surname	Liu

The information above would be shared with the service if you proceed. Do you agree to release this information to the service every time you access it?

Select an information release consent duration:

- Ask me again at next login
  - I agree to send my information this time.
- Ask me again if information to be provided to this service changes
  - I agree that the same information will be sent automatically to this service in the future.
- Do not ask me again
  - I agree that **all** of my information will be released to **any** service.

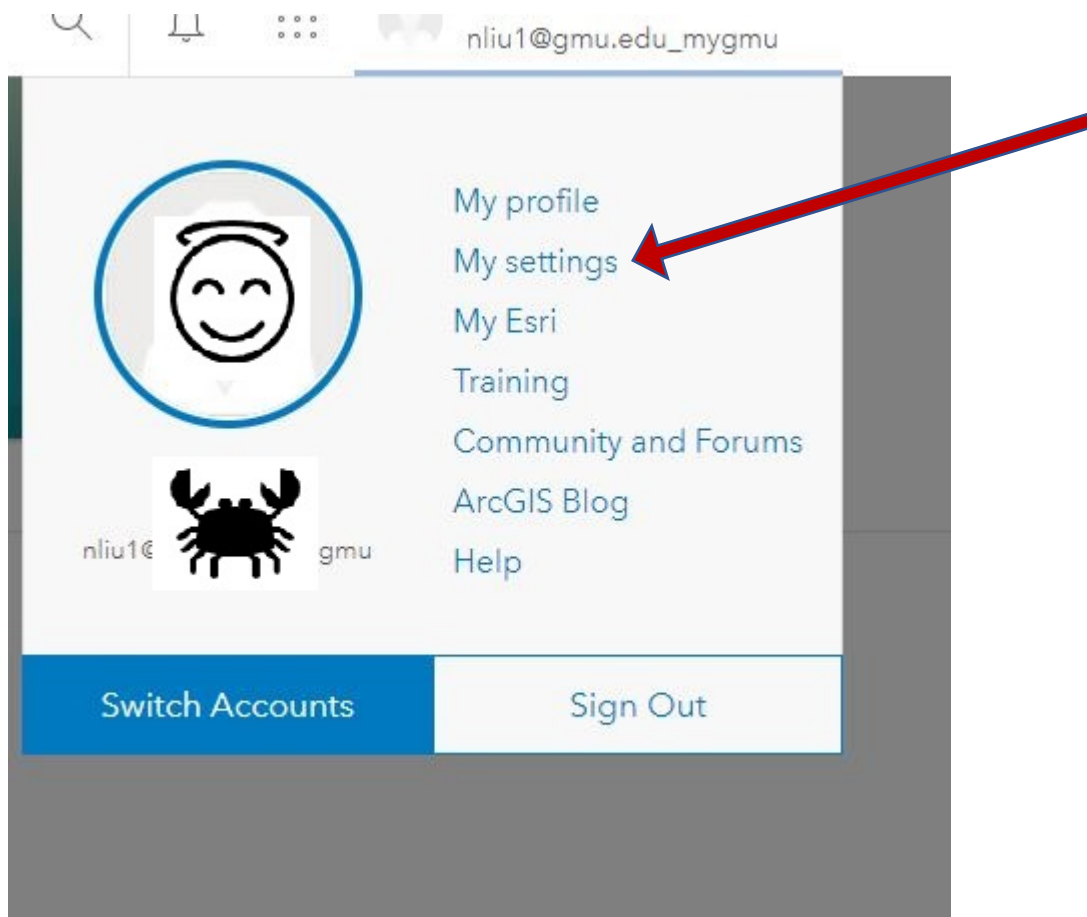

This setting can be revoked at any time with the checkbox on the login page.

d) Accept:

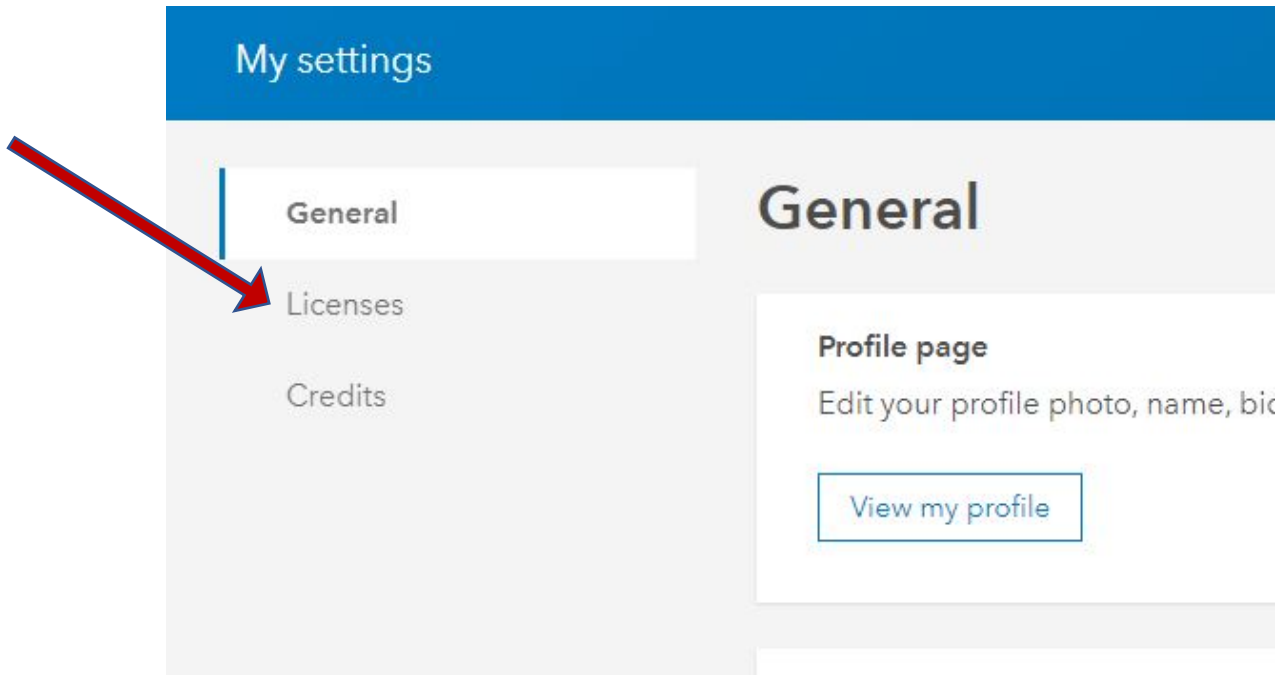

Please READ before you proceed

Welcome to GMU ArcGIS Online. ArcGIS Online allows you to create/load/share spatial data and information individually, within user groups, organizations or worldwide. ESRI training is also accessible from ArcGIS Online. You are responsible for the content you publish or share. By clicking "Accept" you are agreeing to comply with the "Permitted Usages" information page. Please review it carefully.

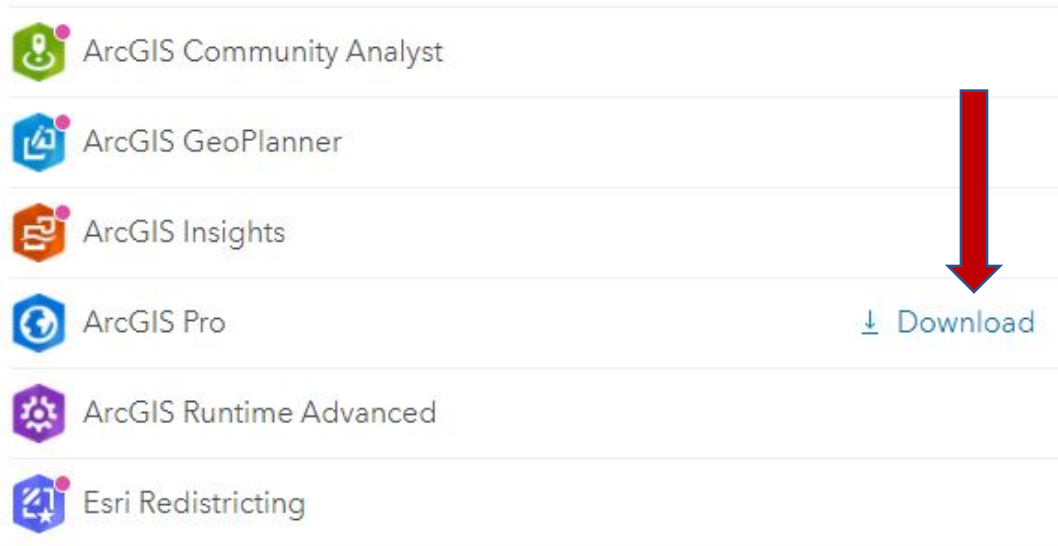

e) Click “My settings” below your login account at the upper righthand corner:

f) Click “Licenses” on the left side menu:

g) Scroll down until you see “ArcGIS Pro”. Then click “download”:

h) Wait until the download is complete then click the download file to start the installation.

## 2. Installation:

- Start the ArcGIS Pro installation program and click **Next** when you are ready to proceed.
- Review the license agreement and accept it if you agree. Click **Next** to continue with the installation. You must exit if you do not agree with the terms.
- Select the installation context in which ArcGIS Pro will install, whether per-machine (all users) or per-user. By default, the per-machine option is selected. Click **Next** to continue.

• Note: **If the user running the setup does not have administrative privileges, a per-machine instance of ArcGIS Pro cannot be installed.**

- Click **Change** to specify the installation folder or click **Next** to accept the default location of C:\Program Files\ArcGIS\Pro\.
- If the installation folder is changed, neither ArcGIS nor Pro is appended to the modified path. It is recommended that the selected custom installation

location include a folder and not the root location of a drive.

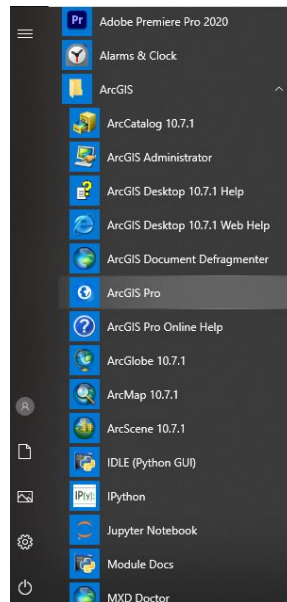

- Click **Install** to begin the installation. Note that the [Esri User Experience Improvement](#) check box is checked by default.
- Click **Finish** to close the wizard when the installation completes. Leave the **Run ArcGIS Pro now** check box unchecked at this moment if you like to upgrade to ArcGIS 2.5.2.

To load ArcGIS 2.5.2 patch:

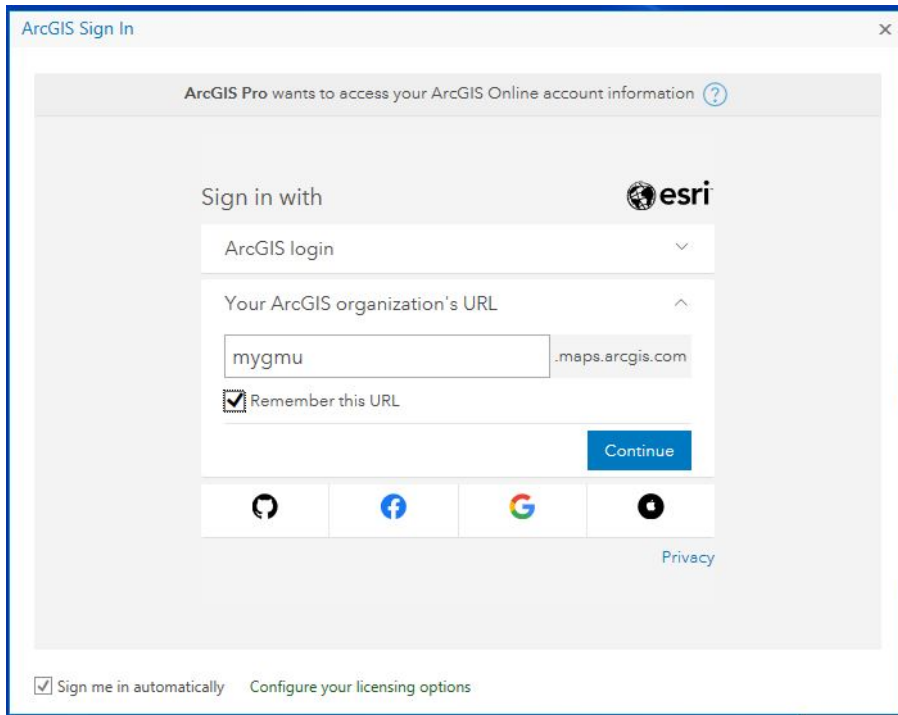

- Click on the second download file and run the installation. Proceed till it's finished.

### 3. To use ArcGIS Pro:

a) click on the ArcGIS Pro

b) Choose organizational log in and fill in the box with “mygmu” and select “remember this URL”. The Whole URL looks like: mygmu.maps.arcgis.com  
You will need to use [Two Factors](#) to log on to use ArcGIS Pro.

The End
