This document is an example of a degree pathway for Geography students. Geography students are strongly encouraged to work closely with an advisor to work through their own unique degree plan. Students should keep the following in mind:

- Satisfactory grades are required to receive credit for a course
- Choose Mason Core and Foundation courses from the list of approved courses
- Students must have a minimum of 45 credits at the 300/400 (upper) level
- Students should meet with their Academic Advisor at least once a semester to plan their semester schedule
- Get involved with student organizations: GGS a student-run Geography Club
- Look into research opportunities
- Plan to complete an internship

Academic advising in the Department of Geography and Geoinformation Science at GMU is an integral part of the educational process. Our advisors are dedicated to creating an atmosphere in which students can discover their potential, set and reach individual goals, explore and plan appropriate academic study, and prepare for success after graduation.
