

# EVPP 108:

## *Ecosphere-Introduction to Environmental Science LECTURE*

INSTRUCTOR:  
DR. K. LARGEN

Summer 2022  
Session A

LECTURE  
3 CREDITS

ONLINE  
Asynchronous

This course studies the components and interactions that make up natural systems of our home planet. It teaches basic concepts in biological, chemical, physical, and earth sciences in an asynchronous on-line lecture format. Coursework includes discussions, homework, and exams. This is a lecture-only course that fulfills the Mason Core – Explorations – Natural Science requirement for a 3-credit-hour non-lab science course.
