

# EVPP 112

## *Ecosphere: Introduction to Environmental Science II - LECTURE*

INSTRUCTOR:  
K. LARGEN

Summer 2022  
Session C

LECTURE  
3 CREDITS

ON-LINE  
Asynchronous

Topics covered include human population issues, non-renewable and renewable energy, biodiversity and conservation, environmental policy, air quality, water quality, waste management, climate change, and sustainability, using an asynchronous on-line lecture format. Coursework includes discussions, homework, and exams. This is a lecture-only course that fulfills the Mason Core – Explorations – Natural Science requirement for a 3-credit-hour non-lab science course.

Department of Environmental  
Science and Policy
