

EVPP 112

Ecosphere: Introduction to Environmental Science II - LECTURE

INSTRUCTOR:
K. LARGEN

Summer 2021
Session C

LECTURE
3 CREDITS

ON-LINE
Asynchronous

Topics covered include human population issues, non-renewable and renewable energy, biodiversity and conservation, environmental policy, air quality, water quality, waste management, climate change, and sustainability, using an asynchronous on-line lecture format. Coursework includes discussions, homework, and exams. This is a lecture-only course that fulfills the Mason Core – Explorations – Natural Science requirement for a 3-credit-hour non-lab science course.
