

# EVPP 201 KD1:

## *Environment and You: Issues for the 21<sup>st</sup> Century*

INSTRUCTOR:  
Keanah Turner M.S

SPRING 2021  
3 CREDITS

ONLINE  
ASYNCHRONOUS

In this class, we will examine the severity of different threats posed by various environmental problems. Throughout this course you will 1) explore environmental issues, 2) learn to identify drivers of those issues, and 3) explore solutions. However, a major goal of the course is for each student, individually, to develop their own level of environmental awareness which will culminate into a final Environmental Issue Report

### Course Topics:

- Pollution
- Population Dynamics
- Global Warming
- Agriculture
- Environmental Toxicology

Department of Environmental  
Science and Policy
