

EVPP 436-001:

The Human Dimensions of Global Climate Change: From Encounters to Actions

INSTRUCTOR:
V. Prasad

LECTURE ON-LINE
Tuesdays
4:30-7:10 PM

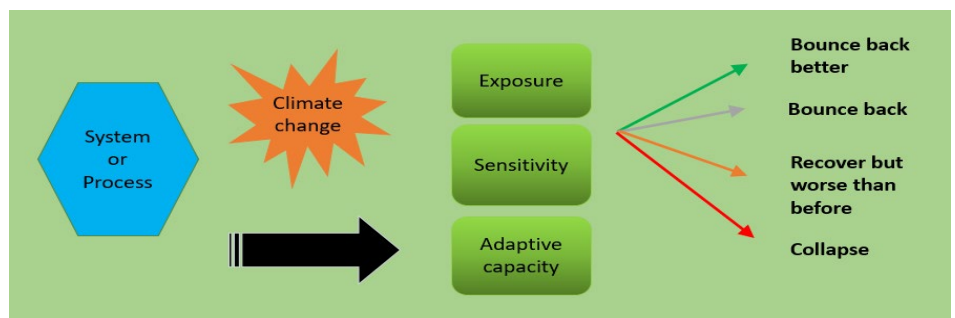

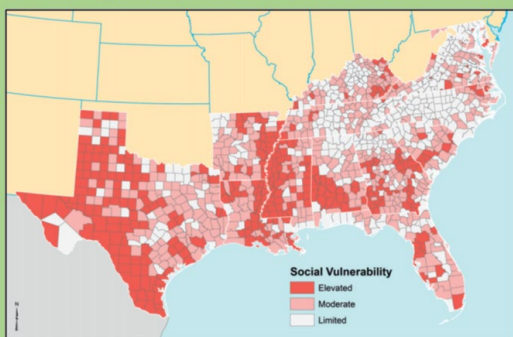

Fall 2020
3 CREDITS

In this course, we will learn and practice academia's role(s) and professional skills in global climate change issues, with a focus on the social sciences. You will gain an in-depth knowledge of the diverse ecological, cultural, and policy issues of global climate change.

You will be fluent in the current science of global climate change; you will learn to develop a vulnerability assessment framework and its application, proposal concept note for funding, and participate in climate change negotiations.

Climate change and social vulnerability in the Southern United States
