Controversy in Fisheries Science

INSTRUCTOR:
T. Reid Nelson

Fall 2021
2 CREDITS

Face to Face
Instruction

Mondays
4:30 – 6:20 PM
77 Enterprise Hall

Overview and discussion of controversies in fisheries science:

- Will fisheries be collapsed by 2048?
- Are we fishing down food webs?
- Single species vs. ecosystem based management?
- Aquaculture (pros and cons)
- The future of fisheries, sustainability of fisheries, and other controversies
- Seminar course with no exams
- Student presentations and discussions focusing on a new controversy each week
