As I wanted to explain the joint program that is George Squared and because I had my coursework all listed under George Mason University, I added George Squared into my "experiences" which I believe is found in the "Supporting Information" section of the application. I listed it as academic enrichment.

A few schools asked about the program and I explained it to them, that we had professors from both schools, etc. And as well, I believe Dr. Hahn's letter of recommendation refers to the program, providing additional explanation. Best of luck!
