

Topology, Algebraic Geometry, & Dynamics Seminar

Holomorphic SCFTs of small index

Theo Johnson-Freyd, Dalhousie University & Perimeter Institute

I will explain how some questions in theoretical physics and algebraic topology led to a curious result about error-correcting ternary codes. No knowledge of the terms in the title or abstract will be assumed. Based on joint work with Davide Gaiotto.

Date: Friday, November 13, 2020

Time: 1:30-2:30 pm

Place: 4106 Exploratory Hall

For special accommodations, please contact David Carchedi via email at dcarched@gmu.edu.
