

Syllabus for PHYS 260 Recitation

Summer 2021

Florin Moldoveanu

Recitations are a required part of PHYS 260; their purpose is to help you solve physics problems and answer your physics questions.

This recitation is asynchronous. I will record videos of me solving the problems and I will post the videos. I will create quizzes for each video and you will be graded on the quizzes. To answer the quizzes correctly you will have to watch and understand the videos.

The overall quiz grade reported back to the lecture instructor.

For individual help I will hold office hours using Zoom on Wednesday 9:00 am - 10:00 am or by appointment.

Summer 2021 Office Hour

Jun 23, 2021 9:00 AM Eastern Time (US and Canada)

Every week on Wed, until Jul 21, 2021, 5 occurrence(s) [Hide all occurrences](#)

Start Time	Time	Duration
Jun 23, 2021	9:00 AM	01:00
Jun 30, 2021	9:00 AM	01:00
Jul 7, 2021	9:00 AM	01:00
Jul 14, 2021	9:00 AM	01:00
Jul 21, 2021	9:00 AM	01:00
