November 30, 2021:
You are invited to watch the second installment of the Mason Vision Series, featuring TraCCC director, Dr. Louise Shelley, the Omer L. and Nancy Hirst Endowed Chair and a University Professor, who will address How the Smart Use of Data Is Being Used to Fight Transnational Crime. Dr. Shelley will describe new visionary research conducted at TraCCC where sophisticated use of data is providing key insights into critical problems of corruption, terrorism, illicit trade, and transnational crime. She will also highlight her National Science Foundation funded team’s prize-winning basic research using advanced data analytics, which has contributed to the seizure worldwide of over 55 million counterfeit and substandard medical masks that would have otherwise endangered medical care providers.

DATE: Tuesday, 30th November
TIME: 7:00 pm to 8:00 pm EST
LOCATION: GMU-TV

December 1, 2021:
The Enablers: How the West Supports Kleptocrats and Corruption – Endangering Our Democracy
A book discussion with Frank Vogl

Authoritarian regimes in many countries, and the men that lead them, depend on the international management of licit and illicit funds under their control. The vital management services are provided by “THE ENABLERS” – banks, real estate brokers, auditors, lawyers, financial consultants, and art auction houses headquartered on Wall Street, in the City of London and in other major international financial capitals.

TraCCC is honored to host Frank Vogl as he details the massive scale of the activities of today’s enablers for their kleptocratic clients and why curbing their operations is critical to secure democracy, enhance national security, and ensure international financial stability.

DATE: Wednesday, 1st December
TIME: 12:00 pm to 1:30 pm EST
LOCATION: Virtual
