

GGS 102-002: Physical Geography
Fall Semester 2016
George Mason University

GGS 102 fulfills Mason Core requirement in Natural Science Non lab

Contact details:

Instructor : Maction Komwa, PhD
Office : Exploratory Hall, Room 2210
Office hours : Tuesdays [1:00 pm – 2:30 pm] or by appointment
Tel : 703-993-5646
Email : mkomwa@gmu.edu

Class Meetings

Day/Time : M|W [10:30 AM – 11:45 AM]
Location : Exploratory Hall, Room 2310
Credits : 3 hours

Course Format: Lecture, twice a week

Required Textbook: Introducing Physical Geography by Alan Strahler, 2012- 6th Edition
ISBN is 9781119330721
ISBN for Strahler 6th edition WileyPlus/Bb only: 9781118569047

Catalog description:

This is an introductory course in physical geography, the study of Earth's natural environmental elements and processes. The course will examine the natural characteristics and systems of the earth. You will also be exposed to a great deal of new vocabulary essential to understanding course material. The course will cover a number of topics including the interrelated processes affecting global distribution and character of climate, soils, vegetation, hydrology, landforms and elements of mapping.

Student Learning Objectives:

After successful completion of this course, each student will be able to:

1. Understand how scientific inquiry is based on investigation of evidence from the natural world, and that scientific knowledge and understanding:
 - i. evolves based on new evidence
 - ii. differs from personal and cultural beliefs
2. Recognize the scope and limits of science.
3. Evaluate scientific information (e.g., distinguish primary and secondary sources, assess credibility and validity of information).
4. Students learn key events in the history of science
5. Identify, evaluate, and properly cite resources appropriate to the field, such as audio/visual/online/print materials, or artifacts.
6. Recognize and articulate the relationship between the natural sciences and society (e.g., health, conservation, sustainability, energy, natural disasters, etc.);

Grading and Assignments

There will be three (3) exams [MCQs.] in this course [including final]. Final Exam will not be cumulative, however, few key basic concepts discussed in early chapters will be included. All exams will be based on the concepts and themes from class lectures and discussions, book chapters, and any additional readings. Finally, a course project examining a major physical feature characteristic, or relevant concepts/processes that will be covered in class and/or in your textbook will be completed at the end of the semester in groups of 3-4 students (details of the project will be posted through the Blackboard).

The following grading criteria will be used to determine your final grade:

Assignment	Points	Percentage
Homework (x3) [20 points each]	60	10%
Quizzes (x5)* [10 points each]	40	5%
In-class group Activities (Class Participation)	40	5%
Exam 1	100	20%
Exam 2	100	20%
Final Exam	100	25%
Final Group Project [Presentation]	80	15%
Total Possible Points	520	100%

* *Lowest score of your quiz will be dropped.*

** *A final group project is due by the end of the course. Details of Group Project will be discussed in class and instructions will be provided later during the semester.*

A >=93	B+ 86 - 89	C+ 76 - 79	F < 60
A- 90 -92	B 83 - 85	C 70 - 75	
	B - 80 - 82	D 68 - 60	

Letter grades of A, B, C, D, and F will be assigned for completion of this course based on the cumulative score of all evaluated work.

Classroom Expectations and other Miscellaneous:

Students are expected to be on time for class. Regular attendance is strongly recommended.

1. Should circumstances arise that make you late, do not disrupt the class as you enter, take the first available seat and do not walk across the room.
2. Clean up after yourself. If you pack it in, pack it out; leave your seat better than you found it. Remember, take only notes, and leave only a warm seat.
3. In the event of any class cancellation, including inclement weather (e.g. snow), the class will resume where we left off, Adjustments, if necessary, will be made later.

Academic Honesty:

George Mason University operates under an honor system, which is published in the University Catalog and deals specifically with cheating, attempted cheating, plagiarism, lying, and stealing. Please familiarize yourself with the honor code, especially the statement on plagiarism (<http://www.gmu.edu/org/honorcouncil/guidelines.htm>).

Note: I will respond to acts of academic misconduct according to university policy concerning plagiarism. In such cases Plagiarism will result in a failing grade of the assignment in question and/or for the course. Make sure you check the instructions through the Blackboard on how to

write your term papers. If you have questions about when the contributions of others to your work must be acknowledged and appropriate ways to cite those contributions, please talk with the professor.

Electronic Communications & Blackboard

If you are enrolled in this course you will have access to the Blackboard site - available at: [<https://mymasonportal.gmu.edu>]. You will need to log on using your GMU user name and password. Blackboard will be used to submit your assignments and to check for announcements/critical updates to the syllabus or clarifications of assignments, and supplemental materials. It is the responsibility of the student to check the GMU Blackboard on a daily basis. Additionally, GMU policy requires all students to use their GMU account. Emails sent through Gmail or Yahoo accounts etc. will not be acknowledged.

University Services

George Mason University has a number of academic support and other resources to facilitate your success. Some of these resources are presented below:

- i. Counseling and Psychological Services [<http://caps.gmu.edu/>]
- ii. Learning Services, University Career Services [<http://careers.gmu.edu/>]
- iii. The Writing Center [<http://writingcenter.gmu.edu/>] and other Learning Services within GMU.
- iv. University Catalog: <http://catalog.gmu.edu/> |
- v. University Policies: <http://universitypolicy.gmu.edu/>

Absences & Accommodations

Students are expected to attend all classes and to complete all assignments on time. Absences may have an adverse effect on grades in a course including failure.

Excused absences: In certain circumstances, absences may be excused. These include:

- **Absence for religious observances:** Students must notify their professors in writing at the beginning of the semester of religious observances that conflict with classes. Students who cannot be accommodated should discuss the matter with a dean. 📧
- **Absence for athletic travel:** Student-athletes must provide their professors with a travel letter at the beginning of the semester which highlights potential absences. Students who cannot be accommodated for some or all absences should discuss the matter with the relevant Academic Coordinator for Student-Athletes.
- **Absence for documented illness:** Students who miss multiple classes due to prolonged illness should seek medical care and provide documentation of such to the Dean's Office, which will communicate with the student's professors. A prolonged absence may necessitate the student's withdrawal from the course or from the University for the semester.
- **At the discretion of the professor:** There may be cases where an absence is undocumented but is, nevertheless, excused by the professor (e.g., absence due to a death in the family). Students should initiate a conversation with their professors about the nature and duration of the absence, in advance of the absence whenever possible.

When absences are excused, students remain responsible for all assigned work, and shall be provided with the opportunity to make up, without penalty, any work that they have missed.

Accommodations: Students with documented and qualifying learning, physical and psychological disabilities should contact the Disability Services (ODC), which arranges for reasonable accommodations in accordance with the Americans with Disabilities Act and University policies. In order to arrange accommodations in each course, the student must present his/her professors with a letter from the ODC outlining the recommended accommodations at the beginning of the semester. Disability Services (ODC) website: <http://ods.gmu.edu/> / Student Union Building I (SUB), Room 2500. Telephone: (703) 993-2474.

Cell phone/social media policy:

Cell phones are to be switched off or in silent mode ONLY if urgent messages are expected from family members; no cell phones shall be answered or calls made, nor text messages sent or received or postings made or read on social media sites. If the student expects/needs to respond to a family emergency or situation, he/she can excuse him/herself from class to respond. This policy is for professional courtesy and respect to the lecturer and fellow students.

Tentative Course Schedule

Date	Topic Description	Assignment & Due Date
8/29	Course introduction and overview	--
8/31	Essentials of Geography – Chapter 1	-
9/5	Labor Day – Holiday, No class	--
9/7	Introduction to Physical Geography- The Earth as a Rotating Planet	Assignment 1 Out
9/12 & 9/14	The Earth’s Global Energy Balance	Assignment 1 Due
9/19 & 9/21	Air Temperature	Quiz 1 [9/19]
9/26	Atmospheric Moisture & Precipitation	--
9/28	Test 1	
10/3 & 10/5	Global Climates and Climate Change	Assignment 2 Out Quiz 2 [10/3]
10/10	Columbus Day	
10/11*	Class meets on Tuesday – Global Soils	Assignment 2 Due
10/12	Global Soils	
10/17 & 10/19	Earth Material and Plate Tectonics, Earthquakes & Volcanoes	Quiz 3 [10/19]
10/24 & 10/26	Global Biogeography	
10/31	Test 2	
11/2	Wind and the Global Circulation Group Project Review	Assignment 3 Out
11/7 & 11/9	Weather Systems	Quiz 4 [11/7]
11/14 & 11/16	Fresh Water of the Continent	Assignment 3 Due [11/14]
11/21	Landforms made by Running Water	Quiz 5
11/23 – 11/27	Thanksgiving – No classes	

Date	Topic	Assignment & Due Date
11/28	Group Project Presentation	
11/30	Group Project Presentation	
12/5	Group Project Presentation	
12/7	Group Project Presentation Final Exam Review	
12/14	Final Exam [10:30 – 1:15 pm]	

Syllabus Changes

The course instructor reserves the right to make changes as necessary to the course content and office hours during the course of the term. If these changes are made they will be immediately notified to students through individual emails or the blackboard explaining the nature of the change(s).
