

Chemistry Seminar Series

Hosted by the Penn State Chapter of NOBCChE
Sponsored by Penn State Chemistry and New England Biolabs

For information about Post-Doctoral Fellowships at New England Biolabs
please visit: <https://www.neb.com/about-neb/careers>

Register here for the seminars and to meet with the speakers
<https://tinyurl.com/psu-nobcche2021>

PennState
Eberly College
of Science

Monday, February 1st at 4 PM EST

“The search for new microbial
natural products and biocatalysts”

Professor Lesley-Ann Giddings
Smith College, Department of Chemistry

Monday, February 8th at 4 PM EST

“Synthetic strategies inspired by
complex natural products”

Professor Sidney Wilkerson-Hill
UNC Chapel Hill, Department of Chemistry

Monday, February 15th at 4 PM EST

“Understanding the Properties of Inorganic-Organic
Hybrid Nanoparticles for Materials Development”

Professor Andre Clayborne
George Mason University, Department of Chemistry

Monday, February 22nd at 5 PM EST

“Bioprocessing and Sustainable Agriculture”

Jonathan Jones
Fermentation Research Team Leader
at Corteva Agriscience
