COURSE DESCRIPTION (3 credits)

This course provides a survey of cultural, physical, and societal aspects of major world regions. We will examine how forces across various scales, from local to global, shape the character of place and space. Furthermore, we will explore how regions differ from one another, are similar to one another, and interact with/interrelate to one another in today's globalizing world.

Acquiring a familiarity with and a foundation in the geography of the major world regions allows us to ask more critical questions about the unevenness of various geographical processes and patterns on the landscape in addition to reflecting on our own role in the larger world.

GGG 101 SATISFIES THE MASON CORE GLOBAL UNDERSTANDING REQUIREMENT.

LEARNING OUTCOMES

2. Identify and describe how humans interact with and adapt to their environment

4. Describe world regions based on physical, cultural, and economic traits
5. Explain similarities, differences, and interdependencies among world regions across multiple scales
6. Identify the distribution of patterns of human and physical geographical features across the globe and describe the geographical processes that explain said patterns
7. Demonstrate understanding of how the patterns and processes of globalization make visible the interconnections and differences among and within contemporary global societies
8. Identify and articulate one's own values and how those values influence their interactions and relationships with others, both locally and globally
9. Explore individual and collective responsibilities within a global society through analytical, practical, or creative responses to problems or issues, using resources appropriate to the field
10. Get curious about the world and have the skills and confidence to explore ☺

LATE WORK POLICY

Each student starts with 2 late work tokens, which allow you to turn in a graded item up to 48 hours past the original due date without penalty. When using a late token, you do NOT need to email the professor in advance; simply turn in/complete your item on BB as usual.

Examples:

If a homework assignment is due to BB on Sunday at 11:59 pm and:

- You turn it in on Tues 10:46 am, I will mark down that you used a late token; no penalty
- You turn it in on Weds 7:13 am, no credit offered because turned in after 48 hr extension

If you need an extension due to extenuating circumstances that are recognized by the university, it is your responsibility to contact the professor by email to inquire about an extension **prior to the original due date; this does not guarantee an extension.**

If you do not use one or both late tokens, extra credit is applied.
