

Climate Science MS Climate Dynamics PhD

virtual open house

Friday 25 October, 10:00-11:30 am EDT

RSVP to climgrad@gmu.edu for zoom link.

We

are leaders in climate modeling, climate predictability, and the ocean-land-atmosphere interactions that determine weather and climate, teaching at Virginia's largest public university, which is situated about 30 minutes from Washington, DC.

You

have studied a field such as math, physics, engineering, computer science, or atmospheric/ocean/Earth science and want a career studying climate and helping society grapple with natural and human-caused climate change.
